SHRIMATHI R

Data Science Student | Machine Learning Enthusiast

shrimathiravi07 LinkedIn Portfolio shrimathiravi44@gmail.com

Executive Summary

Dedicated Artificial Intelligence and Data Science student with skills in Python, data analysis, machine learning, and visualization. Experienced in building dashboards, backend systems, and ML-based applications with strong interest in automation and data-driven problem solving.

Education

B.Tech – Artificial Intelligence & Data Science
2023- Present
Nadar Saraswathi College of Engineering and Technology, Theni
CGPA – 8.29 (up to 5th semester)

Higher Secondary Education

Nadar Saraswathi Girls Higher Secondary School, Theni

Technical Skills

Languages:
Python, JavaScript,HTML,Css

Skills:
Data Cleaning, Exploratory Data Analysis, Machine Learning Model Training ,API Integration,Generative AI, LLM

Databases:
MySQL

Libraries:
OpenCV, Matplotlib,Pandas, NumPy, Seaborn,Scikit-learn

Tools:
Git, GitHub, VS Code, Jupyter Notebook,Power BI, Excel.

Achievements

- Selected for the Final Round of the IBM Hackathon 2026 (Madurai) among teams from across Tamil Nadu, where I developed Farm Nexus agricultural resource booking platform for smart resource sharing and scheduling.
- Participated in the SIT Hackathon 2026 held in Madurai, where I developed Water-Guard-AI.
- Participated in the NSCET Hackathon 2026 held in Nadar Sarawathi College of Engineering and Technology. where I developed Sign Language Interpreter App.

Experience

Data Science Intern – Phoenix Softech, Madurai
March 2025
Worked on Chennai House Rent Prediction project using machine learning models and data preprocessing techniques.

Volunteer Experience

AIM – College Organization
Backend Developer **2024**
Developed the College Alumini Management system a institutional web applications to improve academic and administrative workflows.

Certifications

Advanced Diploma in Python
Successfully completed a 6-month Python Programming course at CSC Computer Education, gaining hands-on experience,opps, file handling, modules, exception handling.

Infosys Springboard Certification
Completed training in Python Library such as Pandas, NumPy, Matplotlib, and Seaborn for data analysis and visualization.

Projects

Chennai House Rent Prediction Link
Built a regression model to predict rental prices using machine learning and feature engineering techniques.

Farm Nexus Link
Developed a full-stack agricultural booking platform using Node.js, MongoDB, REST APIs, HTML, and CSS for smart resource sharing.

Water-Guard-AI Link
Developed a smart complaint priority assignment system using MERN stack and machine learning classification models with Scikit-learn.

Admin Dashboard with Charts Link
Built an admin dashboard using React, Node.js, and MySQL for data visualization, user management, and report generation.
